SUPPORT NOTES

[BACK TO TOP](#)

To be able to help solve a problem quickly, please read the entries below. I will do my best to assist you. I provide a full range of technical support except:

1. I don't support 3rd-party code (external plugins, javascripts, flash players, etc.). In those cases you have to contact the authors.
2. I don't support errors provoked by the strong modification of the original packages.
3. I don't customize the packages in personal way.
4. If you sure that your improvement ideas will be helpful to others, please don't hesitate to share it with me. Most likely that it will became a free package update.

If you have a more general question relating to scripts on CodeCanyon, you might consider visiting the [forums](#) and asking your question in the "Item Discussion" section. Once again, thank you so much for purchasing this plugin.
